

New Values

Robotic-assisted surgical system hinotori™ (Medicaroid Corporation)

**A Safe and Secure
Remotely-Connected Society**

Achieve improved healthcare, innovative disaster-relief, and new styles for work and life

Automated polymerase chain reaction (PCR) testing system utilizing robots

Cross Over

**Trustworthy
Solutions
for the Future**

Japan's largest liquefied hydrogen storage tank (Kobe Airport Island)

Energy and Environmental Solutions

Implement initiatives for decarbonization, utilizing hydrogen-based solutions and other innovations

Unmanned compound helicopter K-RACER

"Near-Future" Mobility

Transform the movement of both people and freight utilizing new mobility products and systems

Frontier

SUISO FRONTIER, the world's first liquefied hydrogen carrier (HySTRA)

We will be making available in a timely manner innovative solutions which accommodate an ever-changing society in order to create a hopeful future. We will also be acting outside of organizational and divisional boundaries, and taking up challenges to expand our potential for further growth.
